an eye above the sea / one eye's enough to see

walking round walking up and up / walking down and down walking round
walking up up up up up up up / and round and round and round and round
would be nice being an ice bear / being at the other side
running round and round and round / the problem is in the edge.

black leather dog dancing its tail for fleas / itching thoughts itching - it cannot reach
proud and brave ever walking in between / hitching and hiking - hiking and hitching
but wanting to stop
to sleep-to go home-to be alone / and to lay down in the edge
to sleep-to go home-catching an owl / black leather fleas as if one as to scratch
